RV COLLEGE OF ENGINEERING®
Autonomous Institution affiliated to VTU
V Semester, B.E.
Model Question Paper (2022 SCHEME)
DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING
COURSE TITLE: CLOUD COMPUTING

*Time: 03 Hours**Maximum Marks: 100**Instructions to candidates:*

1. Answer all questions from Part A. Part A questions should be answered in first three pages of the answer book only.
2. Answer FIVE full questions from Part B. In Part B question number 2 is compulsory. Answer any one full question from 3 and 4, 5 and 6, 7 and 8, 9 and 10
- 3.

PART-A

1	1.1	What is right sizing?	01
	1.2	Define modular composition.	02
	1.3	_____ are very good examples for platforms in cloud computing.	01
	1.4	Windows Azure and salesforce.com are examples for _____.	01
	1.5	A major part of cloud computing's value proposition and its appeal is its ability to convert _____ to _____ through a usage pricing scheme.	02
	1.6	List any two SLA parameters.	02
	1.7	The criteria of installing a software on a single or multiple machines is specified in _____.	01
	1.8	Define Composability.	02
	1.9	_____ is a low-level software that allows different operating systems to run in their own memory space and manages I/O for the _____.	02
	1.10	The fundamental unit of virtualized client in an IaaS deployment is called a _____.	01
	1.11	The _____ that run the various Internet domains are IDaaS servers.	01
	1.12	Amazon Web Services is based on SOA standards, including HTTP, _____, and _____ transfer protocols.	02
	1.13	Some cloud service providers negotiate as part of their _____ to contractually store and process data in locations that are predetermined by their contract.	01
	1.14	Expand CHAP.	01

PART-B

2	a	Elaborate on the characteristics of cloud computing.	08
	b	Show the computation of costs for different cloud models with formulae.	08
3	a	Explain Virtual Appliances with examples.	06
	b	Write a detailed note on communication protocols used in cloud computing.	10
		OR	
4	a	Illustrate the protocol stack of SoA with neat diagram.	10
	b	Write short note on SoA communications.	06
5	a	Cloud can be accessed via Web Applications, Web APIs, Web Browsers, Justify your answer,	10

	b	Write short notes on cloud service providers.	06
OR			
6	a	Explain how clients and security are used in cloud technology.	08
	b	Explain the infrastructure services used for cloud computing with neat diagram.	08

7	a	Relate load balancing and virtualization.	06
	b	Describe hypervisors in detail with examples.	10

OR

8	a	Illustrate the system metrics used for a machine instance.	08
	b	Write a short note on VMware VSphere platform.	08

9	a	Describe the cloud management life cycle in detail.	10
	b	Write a short note on Encryption in cloud.	06

OR

10	a	Securing cloud with boundaries and mapping is essential. Justify the point.	08
	b	Write a brief note on Intuit QuickBase and Bangee connect clouds.	08
